

Exposure Guide

If metering with another camera or a light meter: exposure can be calculated by metering at f8 and multiplying the indicated time by 300. Note that films other than Fujicolor Superia may have longer or shorter exposure times due to reciprocity failure.

	100 ASA	200 ASA
Bright Sun	3 Seconds	2 Seconds
Partly Cloudy	15 Seconds	7 Seconds
Overcast / Cloudy	30 Seconds	15 Seconds
Dawn / Dusk	2 Minutes	1 Minute
Indoors with Sun	7 Minutes	4 Minutes
Indoors Bright Light	12 Minutes	7 Minutes
Indoors Dim Light	20 Minutes	12 Minutes
Night Time	40 Minutes	25 Minutes
